Profile ───────────

Focus and determination are the key traits to reach a goal. One step back and two steps forwards is my motto. Computer Student, learning and growing my skill set everyday, knows Object Oriented Programming in Java, Android programming and C Programming. Experimenting machine learning with python. Without having a clue about programming two years ago, I can say that I came a long way. Computer science is not only something I like but is my passion. Currently, I am a honor student at bilkent University.

Other Interest ──────

I am not just a programmer who sits all day infront of the screen. Everyday · I take some time from my schedule to do sports like squash · cycling · fitness and rock climbing.
